<sup>&</sup>lt;sup>1</sup>You should closely monitor <u>both</u> the Line Item Status and the Invoice Status while entering Pharmacy invoices, because an invoice can contain multiple line items. The Invoice Status should <u>never</u> be greater than the lowest Line item Status within that invoice. If there is only one line item on an invoice, the Line Item Status will equal the Invoice Status. The following is a numeric ranking of possible Line Item/Invoice Statuses:

- 1. Pending Pharmacy Determination
- 2. Pending MAS Completion
- 3. Pending Payment Process
- 4. Completed

<sup>&</sup>lt;sup>2</sup>We recommend that the clerk write the computer-generated invoice number on the Pharmacy invoice as it is being processed.

<sup>&</sup>lt;sup>3</sup>The Pharmacy Fee Clerk can use this option to close an invoice <u>only when the invoice and all of the line items within that invoice</u> have reached the PENDING PAYMENT PROCESS status.
